

## **List of Tested Suppliers of Digital Technology**

The Education Department has investigated the bulk purchase of equipment at a discounted price. However, the discounts which companies were willing to give were not substantial and would also have meant that all Societies would have to buy the same make and models, whereas different equipment might actually suit different venues better.

The Education Department has therefore compiled this list of regional suppliers which have been used and suggested to us by NADFAS Societies.\* These suppliers might be willing to give discounts on equipment to NADFAS Societies but crucially will also give on-going service and support to Societies after the purchase of equipment. This is not a finite list and the Education Department would welcome suggested additions.

If you would like to find out more about these companies, and what they would possibly offer NADFAS Societies, please telephone the Education Department on 020 7430 0730 ext.234

\*The Education Department contacted Savilles and found them to be helpful. If your Society uses them, please do give us feedback.

### **Allan Smyth Audio Visual**

Area Covered: UK-wide (sales) North East (hire and support)  
Address: Allan Smyth Audio Visual  
67 Dragon Parade  
Harrogate  
North Yorkshire
